- prince-code143.github.io/portfolio
- Bhilwara, Rajasthan, India

SKILLS

Industrial automation

- PLC Programming
- HMI Programming SCADA
- PID Control

Embedded & IoT

- Arduino Microcontrollers
- Raspberry Pi
- Internet of Things Sensors

Robotics

- ROS / ROS 2 Robotic Arm
- Kinematics
- Human-Robot Interaction

Software

- Python C++ OpenCV
- Mobile App Development
- Dashboards (UI/UX)

Technology is more powerful
when it improves people's
everyday lives.

PRINCE SUKHWAT

Robotics Trainer | Embedded Developer | Home Automation Expert

Robotics trainer and embedded developer with over five years of hands-on work across home automation, industrial automation and robotics. Led Gorgeous Home Automation for three years, building and selling smart-home and water level control products, worked as a contract engineer at Statue of Belief, Nathdwara, and now trains students in robotics at NIMO Labs India. Has built 45+ working projects – from an AI humanoid receptionist robot and a kinetic wall to WRO National Championship entries.

Experience

NIMO Labs India Pvt Ltd

May 2024 – Present

Robotics Trainer · Udaipur, Rajasthan

CURRENT

- Run robotics classes and hands-on workshops covering Arduino, microcontrollers, sensors and IoT.
- Built **Nikki**, an AI humanoid receptionist robot that wakes on its name, understands visitors' questions and answers by voice (Raspberry Pi, speech-to-text, LLM, text-to-speech).

Statue of Belief

Feb 2024 – May 2024

Contract Engineer · Nathdwara, Udaipur, Rajasthan

Gorgeous Home Automation

Mar 2021 – Feb 2024

Director · Bhilwara, Rajasthan

- Led the business end to end: product design, installation and customer support for smart-home automation.
- Designed the **PRII01 automatic water level controller** with tank-level indication, motor status, sensor inputs and a manual bypass switch.
- Delivered home automation that controls lights, fans, AC and door locks from a mobile app in real time.

Competition projects

WRO 2026 – Protector of Heritage Sites

National & Regional Championship

WRO 2026 – Museum Story Teller

National & Regional Championship

WRO 2025 – Mars Green House

National & Regional Championship

WRO 2024 – Smart Irrigation System

Regional Championship

Multi-Level Farming Project

Google Office

Open Robotic Competition

Sangam University

TRAINING

- NIMO Labs India Pvt Ltd
Udaipur
- Geetanjali Institute of Technical Studies (GITS)
Udaipur
- SS Polytechnic College
Udaipur
- Pacific Polytechnic College
Udaipur
- Smart Study International School
Nathdwara, Udaipur
- Udbhav Preschool
Udaipur

EXPERTISE

- Robotics
- Smart Homes
- IoT Solutions
- Embedded Systems
- Training & Workshops

Building smart homes & intelligent robotics — let's automate your world together.

Key projects

Humanoid Robot — Nikki

AI | Robotics | HRI · 2025

Voice-driven receptionist robot with LED face and touch display that greets and answers visitors.

Kinetic Wall

Robotics | Servo Control | Embedded

Wall of servo-driven panels that move together in programmed patterns.

Automatic Bottle Filling System

Automation | PLC | Sensors

Conveyor line with valve-controlled filling, a robotic arm for handling and an automatic capping station.

Water Level Controller (PRI101)

Automation | IoT | Embedded

Commercial controller that runs the pump automatically from high and low tank levels.

5

Full Home Automation

IoT | App Control | Real-time

Phone-app control of lights, fans, AC and locks across a home.

6

Motor Control Using IoT

UI/UX | Monitoring | Control

Software dashboard for live monitoring and control of connected devices.

More projects

Robotics & Industrial

- Small Humanoid Robot
- Industrial Robotic Arm (multi-axis pick-and-place)
- Robotic Arm Project
- PID Line Follower Robot
- Lake Cleaning Robot
- Food Service Robot
- Mars Colony Builder
- Smart Traffic Light
- Smart Parking System
- Piezoelectric Power Generator
- First PLC Project

Home Automation

- Hands-free Home Automation (Alexa & voice)
- Automatic Stair Light + Smart Door Lock
- Staircase Light Automation
- Water Motor Automation
- Basement Motor Automation
- Normal TV Control Using Smartphone
- Switch Automation Using IR Sensor

Software

- Hand Gesture Control
- Personal Portfolio Website
